

2022-2023 Receivership School Quarterly Report #1
Report Period: July 21, 2022 to October 31, 2022 (Due October 31, 2022)

This document is to be completed by the School Receiver and/or their designee and submitted electronically to OISR@NYSED.gov. **All sections of the report must be completed by fully responding to each prompt.**

The reporting portion of this document is a self-assessment of the **implementation and outcomes of key strategies** related to Receivership, and as such, is not considered a formal evaluation via the New York State Education Department. Once finalized and accepted, this document in its entirety ***must be posted*** in a conspicuous place on the district website. All responses should directly align with, or be adaptations to, previously approved intervention plans and **require explicit engagement and input from community engagement teams.**

School Name	School BEDS Code	District	Lead Partner or EPO	Receivership Cohort	Hyperlink to where this plan will be posted on the district website:

Executive Summary

Please provide a *plain-language summary* of this completed report to reflect changes and progress made during this reporting period and to describe how actions were taken to implement lead strategies, engage the community, and enact Receivership powers. The summary should be written in terms easily understood by the community-at-large. Please avoid terms and acronyms that are unfamiliar to the public and limit the summary to *no more than 500 words*. **Any links included must be made publicly available prior to submitting the report.**

Giffen Memorial Elementary began the 22.23 school year reviewing our 22.23 School Comprehensive Education Plan with all staff during our professional development days before the start of student entry for the school year (developed at the conclusion of the 21.22 school year and the summer of 2022). As indicated in our 22.23 SCEP, the focus of our work for the upcoming year continues to be providing professional development, and coaching support focused on lesson rigor, standards-based instruction and learning targets for all grade levels. Teachers will continue receiving professional development around standards based instruction, with a focus on complex texts, cognitive engagement strategies, and writing. RULER (our social emotional learning program) training was provided to all staff around developing student and staff emotional competency. Instructional support for teachers currently includes : grade level/individual coaching cycles based on benchmarking data, teacher need and request, coach facilitated weekly common planning time, and monthly Tier I planning time and guidance for strategic small group instruction. In September, we began to implement our ELA double-dose model (increased daily minutes) of small group reading instruction and MTSS (multi tiered system of supports) in all grade levels, including self-contained. All classrooms are supported by reading teacher push-in support of small group instruction. There are additional pull out interventions provided to all Tier III students. Math interventionists (two) are currently pushing in and supporting small group Math and/or Math RTI instruction, in Grades 2 - 5, implementing our Bridges Math intervention program. We recently administered our Fall NWEA assessments, Math and ELA pre and post assessments, as well as our curricular checkpoints; we will begin to review and modify instruction and planning based on those assessment results.

Assessments and data collection will continue to be a strategy to drive instructional decisions at Giffen. We will administer, review and modify instruction based on our NWEA assessments, Math and ELA pre and post assessment data, formative assessments, as well as our curricular checkpoints, continuously as data becomes available. There will be two scheduled embedded PDs provided by the district data coach for grade level specific planning for all student/classroom data points.

As indicated from our DTSDE survey data, we will continue our Equity and Social Emotional Learning for staff to strengthen their understanding of Culturally Relevant Pedagogy in order to create more affirming environments for our Black and Brown student population. Lifting student voice continues to be the focus for staff this school year. We began the 22.23 school year listening to testimonials of the class of 2022 around the people and spaces that they most connected to during their time at GMES. We also continue to develop in providing opportunities in classrooms for students to have more opportunities to participate in their learning (accountable talk, turn and talks, use of whiteboards, Math launch routines, etc.). As of September, teachers worked with students on introducing the Mood Meter, beginning the conversation around emotions, and beginning to increase their emotional vocabulary. RULER lesson plans were developed and shared with teachers for implementation with students on Monday, October 24, 2022 (Grades K-2) and Monday, October 31, 2022 (Grades 3-5).

Walkthroughs by school and district administrators will continue to inform the impact of elements within our 22 - 23 SCEP. September class visits focused on affirming expected practices of building classroom instructional and behavioral routines and expectations. October walkthroughs have focused on revisiting CORE instructional practices within Math and ELA for all students, with a focus on providing grade level materials and instruction around complex texts, while working on text based questioning during whole group instruction. We will continue this focus into the next quarter and add a walkthrough focus for small group and RtI instruction in both Math and ELA. Walk-through trends and an analysis of relevant data will be reviewed with the administrative staff to tier teacher support, and walkthrough data will be shared quarterly with the school's Building Leadership Team, building staff, and Community Engagement Team/School Advisory Team.

Chronic absenteeism, while not an indicator, continues to be a focus of our monitoring and data review this school year. Our SCEP calls for utilizing a tiered model for response to intervention and increasing communication to the school community in an effort to remove attendance barriers. Our attendance rate is currently 74%; our chronic absenteeism rate is 26%. To decrease our chronic absenteeism rate, strategies include: targeting Tier 2 students/families and making initial attendance calls, followed by daily phone calls from our home school coordinators (HSCs), as needed. Our HSCs also conduct home visits for those students/families who are on the cusp of being chronically absent, and they mail attendance letters weekly to those students/families who have met and/or surpassed our attendance thresholds. Additionally, we identify Tier 3 students/families and provide increased focus and communication with those students/families. Our HSCs and assistant principals meet weekly to identify and discuss these students, and work with the district attendance officer, as needed. We also partake in bi-weekly attendance meetings to identify attendance trends and barriers. For those students/families who consistently meet our attendance benchmarks, we send positive communications to students/families to acknowledge their efforts, and we recognize homerooms with daily perfect attendance and the highest monthly attendance rate. Each quarter, we also recognize individual students for having perfect attendance.

Directions for Parts I, II, and III - District and school staff should respond to the sections of this document by both analyzing and summarizing the steps taken to implement lead strategies during the first quarter. Include processes that were **used to assess the impact** of strategies implemented on student learning outcomes.

The 2022-2023 Receivership School Quarterly Report #1 is an opportunity for district and school staff to provide a reflective outline of proposed actions, strategies, and process adaptations made to the school's 2022-2023 Continuation Plan, as part of an ongoing process of *continuous and comprehensive planning*. This should include a clear **focus on how evidence** guides decisions and an articulation of explicit supports for student social-emotional well-being, diversity, equity, inclusion, and active engagement in learning.

- The District should ensure that the implementation of lead strategies addresses *the needs of all learners*, particularly the needs of subgroups of students and those at risk for not meeting State academic standards.
- District and school staff should **assess the impact** of identified lead strategies on student learning, as connected and aligned to diagnostic review feedback, to ensure strategy implementation can achieve *long-term sustainable growth*.

Part I –Lead Strategies for Improvement

Lead Strategies for School Improvement

Include 3-4 core lead strategies that are central to the school’s improvement plan, and outline the progress made this quarter by applying each strategy. Lead strategies are key levers for improvement that are identified based on trends in student performance data and serve as overarching approaches for implementing strategically focused action steps toward achieving demonstrable improvement.

**Quarterly Report #1 with Reflection on Lead Strategies Utilized during
July 21, 2022 – October 31, 2022**

Identify the lead strategies that guided the school’s improvement work during the reporting period, including any that were discontinued.	Status (R/Y/G)	For each lead strategy, outline how the strategy helped achieve progress toward this year’s demonstrable improvement targets.
<p>1. Professional development for teachers on standards-based instruction, standards progression, high leverage routines.</p>		<p>Current data shows (Fall 21 to Fall 22 data) that even amidst student growth, students are not reaching grade level proficiency in all content areas. This lead strategy is yellow as we will continue to provide, plan for, and monitor implementation of learned strategies throughout this school year, as it relates to professional development. Teacher learning and implementation continues to be the highest leverage strategy to change teacher practice and provide high quality instruction for our students. Our PDs will continue to focus on high leverage Math routines, providing rich complex texts for ELA, planning for text-dependent questions and culminating writing tasks; all around state based grade level standards. Many of the online platforms will continue to be a part of teacher learning for integration into lesson planning and delivery. In November we will begin ‘22 professional development of teaching assistants for instruction in student small groups. Walkthroughs and cycles will be a strategy for monitoring and implementation of all teacher learning.</p>
<p>2. Weekly common planning meetings with instructional staff, coaches, and administration to review and modify instructional practices with a tight focus on student work.</p>		<p>Current student data in our PI indicators show that we must continue effective planning and instructional delivery of ELA and Math standards based instruction across all instructional staff (across all Tiers). This lead strategy is yellow as we will continue to utilize this lead strategy throughout the year, revising if necessary, based on student outcomes. While there are professional development hours built into our yearly calendar to develop competency, utilizing the common planning time structure has been the most effective way to do this work and allows teacher collaboration time to focus on assessment data and rework the best instructional routine to continue to push student growth. Administration and</p>

Identify the lead strategies that guided the school's improvement work during the reporting period, including any that were discontinued.	Status (R/Y/G)	For each lead strategy, outline how the strategy helped achieve progress toward this year's demonstrable improvement targets.
		<p>coaches are present during this time to be able to support proper implementation. With the growth demonstrated on the intermediate level, this is a model we will continue to use to lift our practice and provide the most effective instruction in all classes that we can for students.</p> <p>This year common planning time will focus on the planning of instruction that includes the necessary scaffolds for students to remain engaged with grade level instruction, alternating weeks between reviewing assessments and student work, and planning upcoming unit instruction. In addition, time will be dedicated to allow for classroom teachers, interventionists and instructional supervisors to review student data to monitor the progress of students who have specific gaps in their learning, captured in our Tier I plans.</p>
<p>3. Coaches will model and plan with teachers to provide ongoing support in the implementation of strategies taught in professional development. Teachers will share classroom instruction methodologies and student artifacts throughout the coaching cycles.</p>		<p>The instructional coaches are critical in assisting teachers and administration in understanding the best practices to lift teacher classroom practices and provide rich equitable student opportunities. While we have been engaging in coaching cycles for the past few years, we have begun to shift to outcome based cycles, looking at the impact on not only student practice, but also student outcomes. The beginning of the 22.23 school year began with coaching cycles of intermediate ELA RtI teachers, due to a new shift in the district model of the departmentalized teacher providing this instruction and first and second year teachers (Math and ELA). Currently, coaches also continue to monitor Tier 1 Plans to ensure that plans are based upon data/students needs and support teachers with instructional practices and routines to accelerate student achievement.</p> <p>Our social emotional /PBIS coach has worked with staff around implementation of RULER, as well as development and implementation of classroom behavior support plans.</p> <p>This lead strategy is yellow at this time because while we have started utilizing the instructional coaches in a number of capacities, the work is ongoing.</p> <p>Coaches will focus on a few teachers at a time for coaching cycles to provide ample time for them to support changes in teaching practice and demonstrate increased student growth as a result of the coaching cycle.</p>
<p>4. Administrator walkthroughs/instructional rounds will allow for consistent monitoring and feedback on the standards based instruction and tasks provided and understood</p>		<p>Accountability and consistency to implement practices was a need as evidenced through walkthrough collection data in the 21.22 school year. Walkthroughs and classroom visits have begun for the 22.23 school year and will be strategically implemented based on a school tiering system which identifies the level of visits and support needed for classrooms (Q1 admin meeting to occur last week of October). We will begin to share building trends monthly with clear expectations about what practices are expected to be implemented, what will be monitored and to which feedback will be provided. September class visits focused on affirming expected practices of building classroom instructional and behavioral routines and expectations. October walkthroughs have focused on revisiting CORE instructional practices within Math and ELA for all students,</p>

Identify the lead strategies that guided the school's improvement work during the reporting period, including any that were discontinued.	Status (R/Y/G)	For each lead strategy, outline how the strategy helped achieve progress toward this year's demonstrable improvement targets.
through professional development and coaching support		with a focus on providing grade level materials and instruction around complex texts, while working on text based questioning during whole group instruction. As the previous indicators, while this strategy has begun to be implemented this school year, data is not yet available to indicate effective movement of student outcomes based on its implementation.

Part II – Demonstrable Improvement Indicators-Level 1

Level 1 Indicators

Please list the school's Level 1 indicators and complete all columns below. This information should provide details about how lead strategies informed the implementation of specific strategies and action steps to support progress toward the Demonstrable Improvement targets during this quarter.

**Quarterly Report #1 Reflection on Activities Completed for this Indicator during
July 21, 2022 – October 31, 2022**

Indicator	Status (R/Y/G)	Identify specific strategies and action steps implemented to support progress for each of the Demonstrable Improvement Indicators.	<ul style="list-style-type: none"> Provide the specific data/evidence used to determine progress and impact on instruction, student learning, and achievement. Describe how the data trends that emerged during this reporting period will inform future action steps. Include a description of any adjustments made to the continuation plan along with the corresponding data used to inform the adjustment. Any hyperlinks included to provide evidence, such as data, information, and/or relevant documents, must be made publicly available prior to submitting the report. 																																																
<p>#33 3-8 ELA All Students MGP</p>		<p>Our review of our beginning of the year ELA data has indicated that:</p> <ul style="list-style-type: none"> Walkthroughs and student data indicate that there are some strategies working (Tier I review, departmentalizing, common planning focuses) and others that need to be reviewed and modified (curricular assessments, alignment of tier I support and instruction) to continue to develop competency around implementing ELA standards based congruent instruction across all ELA teachers and providers (across all Tiers). Walkthroughs indicate that teachers are developing competency around text dependent questions to further support all student access of grade level complex texts. This is an effort that will continue to be supported through this quarter. Common planning time for teachers to plan together and be included in the review of student ELA progress and ELA instructional strategies used to support student growth will continue to be a focus. Tier I planning time will continue to focus on reviewing EasyCBM data to identify skill development needed by students and small group lesson planning to work to have students quickly master and apply learned phonics, fluency, and comprehension instruction. 	<p><i>Based on the NWEA Fall to Fall performance, using NWEA as a predictor of State performance, the overall growth was 50.6, which is 1 point above our indicator target of 49.6 for 2022 - 2023 school year.</i></p> <table border="1" data-bbox="1464 820 2513 1177"> <thead> <tr> <th colspan="6" style="background-color: #4CAF50; color: white;">GMES with AIC/DLP Students and Self Contained SPED (grades 1, 2, 3, 4) included</th> </tr> <tr> <th style="background-color: #e0e0e0;">Grade Level</th> <th style="background-color: #e0e0e0;">easyCBM Probe</th> <th style="background-color: #ffe0b2;">Grade level Avg. 			providing student scaffolds to those that still require them, and beginning to release those students on the verge or at mastery.															
#39 3-8 Math All Students MGP		<p>Our review of our Fall Math data has indicated that:</p> <ul style="list-style-type: none"> There is movement towards mastery of taught standards however, there are more students that have not mastered the taught standards vs. students that have. Those standards will be spiraled within tasks to reteach and expose students to standards assessed this quarter. Walkthroughs and CPT discussions indicate that teachers continue to develop their competency around high leverage tasks to develop student conceptual understanding and allow opportunities for students to show and explain their thinking, while capitalizing off the use of strategies that are allowing students to strengthen their Math conceptual understanding. Math growth continues to be accelerated, however, our Math CORE performance index is still an area of growth for our building. <p>The following Math strategies will be utilized to support student Math growth and performance index progress in the next quarter based on the above trends and observations:</p>	<p><i>Based on the NWEA Fall performance, using NWEA as a predictor of State performance, overall growth was 50.5 which is 5.2 points above our target of 45.3 for the 2022 - 2023 school year.</i></p> <p>In addition to NWEA, we also use Math curricular assessments to monitor students progress toward mastery on taught priority standards. The current data from those benchmark curricular assessments is below:</p> <table border="1" data-bbox="1462 946 2521 1268"> <thead> <tr> <th>Grade 3</th> <th>Pre-Assessment (Sept)</th> <th>Checkpoint (Oct.)</th> </tr> </thead> <tbody> <tr> <td>Level 1</td> <td>100%</td> <td>71%</td> </tr> <tr> <td>Level 2</td> <td>0%</td> <td>0%</td> </tr> <tr> <td>Level 3</td> <td>0%</td> <td>23%</td> </tr> <tr> <td>Level 4</td> <td>0%</td> <td>5%</td> </tr> </tbody> </table> <p>The Grade 3 checkpoint assessment measured a subset of priority standards taught in the first trimester (3.NBT.1 and 3.NBT.2). The proficiency table is graded out of percentages, Level 1: 65 and below, Level 2: 66-74, Level 3: 75-89 and Level 4:</p>	Grade 3	Pre-Assessment (Sept)	Checkpoint (Oct.) Part III – Demonstrable Improvement Indicators-Level 2

Level 2 Indicators

Please list the school's Level 2 indicators and complete all columns below. This information should provide details about how lead strategies will inform the implementation of specific strategies and action steps to support progress toward the Demonstrable Improvement targets during this quarter.

**Quarterly Report #1 Reflection on Activities Completed for this Indicator during
July 21, 2022 – October 31, 2022**

Indicator	Status (R/Y/G)	What specific strategies and action steps were implemented to support progress for each of the Demonstrable Improvement Indicators?	<ul style="list-style-type: none"> Provide the specific data/evidence used to determine progress and impact on instruction, student learning, and achievement. Describe how the data trends that emerged during this reporting period will inform future action steps. Include a description of any adjustments made to the continuation plan along with the corresponding data used to inform the adjustment. Any hyperlinks included to provide evidence, such as data, information, and/or relevant documents, must be made publicly available prior to submitting the report. 												
<p>#35 3-8 ELA Black Students MGP</p>		<p>The following ELA strategies will be utilized to support progress for student ELA growth and performance index progress in the upcoming quarter based on the above trends and observations:</p> <ul style="list-style-type: none"> Teachers will continue to participate in Standards Based Instruction PD, with a focus on developing text-dependent questions and writing tasks, for K-5 teachers around the Priority standards as outlined in the current ELA pacing map. Teachers, with the guidance of the instructional coaches, will engage in a CPT Structure of <i>Plan, Implement, Evaluate, Reflect</i> focused on planning for text dependent questioning. CPT structure 	<p>Based on the NWEA Fall performance, using NWEA as a predictor of State performance, overall ELA growth for Black students was 50.9 which is 2.1 points above the target of 48.8 for 2022 - 2023 school year.</p> <table border="1" data-bbox="1408 1078 2489 1373"> <thead> <tr> <th>NWEA Reading</th> <th>% met projected growth F21 toS22</th> <th>% met projected growth F21 toF22</th> <th>F 21 to F22 Mean Conditional Growth Percentile</th> </tr> </thead> <tbody> <tr> <td>Black Students (Grades 3 - 5)</td> <td>56</td> <td>41</td> <td>51</td> </tr> <tr> <td>All Students</td> <td>57</td> <td>45</td> <td>46</td> </tr> </tbody> </table>	NWEA Reading	% met projected growth F21 toS22	% met projected growth F21 toF22	F 21 to F22 Mean Conditional Growth Percentile	Black Students (Grades 3 - 5)	56	41	51	All Students	57	45	46

Part IV – Community Engagement Team (CET)

Community Engagement Team (CET)

*The role of the [Community Engagement Team](#) is to serve as an active thought partner in contributing to, and supporting the development of, recommendations for school improvement by **soliciting input through public engagement**. Recommendations made by the CET, including how the school community **and community at-large** were engaged to (1) provide input into the school’s Continuation Plan and (2) review and update, if necessary, its 2022-2023 Community Engagement Team plan and membership, should be addressed in response to the prompts below.*

Report Out of 2022-23 CET Plan Implementation

<ul style="list-style-type: none"> List the categories of stakeholders that have participated as CET members during this reporting period. Include any changes made to the CET’s membership since the development of the 2022-2023 continuation plan. Include the role/title of any new members. 	<p>Describe how recommendations made by the CET during this reporting period were used to inform implementation of the school’s improvement plan.</p>
<p>Administrators Teachers Parents Community School Site Coordinator Home School Coordinator Community Members School Program Provider</p>	<p>The categories of stakeholders on the CET have not changed since submission of the continuation plan. The CET has been informed and has approved of the plan set forth in our School Improvement Plan for the Q1 report.</p>

Part V - Receivership Powers

Powers of the Receiver

Provide a summary of the use of the School Receiver's powers during this reporting period.

The School Receiver negotiated with the Teachers' Union, and an MOA was passed which added an additional two hours of professional development for instructional staff. Each of these professional development hours have been directly connected to the SCEP strategies identified above to lift practices of instructors as it applies to CORE ELA and MATH instruction.

Quarter 1 Professional Development:

August/September 2022	October 2022
8/30/22- First day PD (SCEP, Teachnology, DASA, ERP, COC) 9/15/22- Completion of district mandated trainings, principal virtual drop in hour 9/22/22- PBIS (RULER, point sheets, Flowchart, restorative practice, Tier I forms) 9/27/22- PD Day (ELA Tier I, Math Tier I, Lexia/Dreambox, Behavior team drop in hours, Grade Level Planning time) 9/29/22- Survey completion for PD on 9/27/22, Tier I planning	10/6/22 - Building faculty meeting (building SCEP updates) 10/13/22 - K-5 Math RtI/Bridges; 3-5 ELA & Science teachers meet with ELA coaches 10/18/22 - Science PD Roll Out - Embedded PD with K teachers 10/20/22- Tier I Revisions/ Updates 10/28/22 - ELA 2nd Unit Overview Rollout

Part VI – Assurance and Attestation

By signing below, I attest to the fact that the information in this Receivership Quarterly Report is true and accurate to the best of my knowledge; and that all requirements with regard to public hearings and the Community Engagement Teams, as per Commissioners Regulation §100.19 have been met.

Name of Receiver (Print): _____
Signature of Receiver: _____
Date: _____

By signing below, I attest to the fact that the Community Engagement Team has had the opportunity to provide input into this Receivership Quarterly Report, and has had the opportunity to review and update, if necessary, its 2022-2023 Community Engagement Team plan and membership.

Name of CET Representative (Print): _____
Signature of CET Representative: _____
Title of CET Representative: _____
Date: _____
