Facilities Referendum Proposition #2

Voters also will have the opportunity to consider a facilities package that will have no tax impact.

Proposition #2 would:

- Renovate and expand North Albany Academy to create a permanent third middle school
- Support a five-year facilities plan that would address 87 projects at 18 buildings

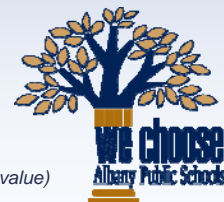

Total proposed budget: \$45.6 million with no tax impact

- Middle school project: \$31.9 million
- Five-year facilities plan: \$13.7 million

Two-thirds of the funding (\$30.6 million) would come from state building aid. The remaining one-third (\$15 million) would be from district savings in the Capital Reserve Fund.

Note: Proposition #2 will require 60 percent voter approval, per State Education Department regulation.

- The proposal would put the district beyond its debt limit three times over the next 30 years.
- The state allows a smaller debt limit for small-city school districts like Albany (5% of total taxable property value) than it does for the vast majority of other school districts in the state (10% threshold).

Five Year Facilities Plan Montessori projects
