

Title II Part B - MSP Year 3: Professional Development Program Plan – Narrative

July 1, 2016-June 30, 2017

Describe the comprehensive professional development plan and program design for the one-year extension of the original MSP grant that includes the following:

- The targeted cohort(s) of teachers and building leaders that will participate in year 3 of grant and the specific engagement in professional development activities planned to be implemented and supported by grant partners/providers for each targeted cohort.

Note: 1) The Institute of Higher Education Partner(s) included in the original funded MSP grant proposal must remain the same; 2) The targeted cohort(s) of teacher participants included in the original funded MSP grant proposal must remain the same to the greatest extent possible; 3) Beginning July 1, 2016-June 30, 2017 teacher participation in a minimum number of 45 professional development hours remains the same, and a minimum number of 30 professional development hours for participating building leaders also remains the same.

- Address the series of new and continued sequential, coherent professional development experiences including priority activities, courses, workshops... that target specific cohorts of participating teachers and building administrators planned for year 3 of the MSP project.
- Use Template A – Professional Development Plan – Year 3 to summarize and update the overall professional development plan for each cohort of teachers and building leaders targeted linked to the Professional Development program narrative for year 3 of the MSP grant
- Similar to year 1 and year 2 of the MSP grant cycle Use Template B – Evaluation Plan – Year 3 to describe and update the local evaluation plan for each cohort of teacher and building leader participants. Address specific instruments that will be used to meet the required state and federal reporting requirements.
- Align the MSP Year 3 Program Plan - Narrative, and Template A – Professional Development Plan – Year 3 to complete the Excel PD Plan for year 3 similar to year 2 of the grant.
