

Strategic Boundaries

A strategic boundary is a self-imposed limit that states what the district will always do or never do. It guides the district to make substantive decisions consistent with its enduring values. Equally important, a strategic boundary further defines the mission. Strategic boundaries must be enforceable.

1. We always will work to enhance students' intellectual, emotional and physical well-being.
2. We always will make instructional, curricular, placement and program decisions based on improving student performance and individual student needs and never on arbitrary or discriminatory factors.
3. We always will offer professional development with appropriate ongoing support to teachers and staff.
4. We always will seek to involve affected students, parents, community members and other stakeholders in decisions regarding our schools and the well-being of our students.
